# DOORS

If you're looking for a special interior door, we combine a long-standing spirit of innovation with customer-focused products, making us the best choice among builders, remodelers, and homeowners. Our extensive line of interior doors include flushed, panel, swinging, decorative, and French. Constantly expanding our diverse line of doors to meet any design or budget, Taylor Made Home Solutions continues to be the place that builders, remodelers, and homeowners choose most.

 **Lynden Door**<sup>™</sup>

 *Masonite*<sup>®</sup>  
the beautiful **door**<sup>™</sup>

**TRU**STILE<sup>®</sup>

Lynden Door is one of North America's premier manufacturers of quality architectural, commercial and residential doors. We offer a blended product portfolio that delivers interior door products to suit a wide range of specifications and budgets.

Since 1978, our business has been doors. Ownership and staff continue this legacy of consistency and the culture of quality found at Lynden Door. Product quality is driven by the hands-on approach of senior management, technological innovation, and rigorous engineering values – often exceeding industry standards. Lynden Door partners with members of the design and construction community committed to high standards of integrity, responsiveness and professionalism. Our distributors share our passion for service.

## MOLDED HIGH DENSITY FIBERBOARD

Lynden Door's Molded doors are available with hollow or solid core construction and matching bifolds; 1-3/8" and 1-3/4" thick. (Please consult the fold-out Sizing Chart.) All Lynden Door molded panels are factory primed, pre-graded and acclimated before fabrication to produce top quality, stable surfaces. Molded door panels offer an ideal substrate for finish painting. Contact your Lynden Door representative for information on fire rated molded panel doors.

Molded doors have become a major force in the residential and light commercial built environment. Why?

### STABLE PERFORMANCE

No cracking or panel separation due to seasonal humidity changes.

### ENVIRONMENTALLY INTELLIGENT

No old growth timber is harvested for the manufacture of our molded panel door skins. Instead, by-products from sawmill operations (within 100 miles of the manufacturing facility) are collected to produce the panels. Measured at dry weight, the door facings are certified to contain a minimum of 35% recycled wood content and NO added urea-formaldehyde.

Contact your Lynden Door representative for the full range of GreenDor™ attributes that may be applied to Molded doors.

### SUPERIOR VALUE

Compelling design and customization opportunity at a significant value versus solid wood doors.

Karona builds precision-engineered hardwood doors from a variety of species featuring plain-sawn face veneers and hardwood edge strips bonded to a stable core material. All Karona door panels feature this same durable core. Dimensionally stable and consistent core materials offer maximum protection against warpage and shrinking. This attention to detail and the finest quality materials allows Karona to offer a limited lifetime warranty on residential products and a five-year limited warranty on commercial doors.

The majority of our architectural projects are custom in nature, which provides you confidence that Karona can manufacture the unique design that sets your project apart. Karona manufactures its products using Old World craftsmanship, while using today's most sophisticated technology.

# TRUSTILE®

Dedicated to the highest level of design and quality, TruStile® doors blend the latest technology with hand craftsmanship. Consider the important – and often overlooked – role doors play as a critical element in home design:

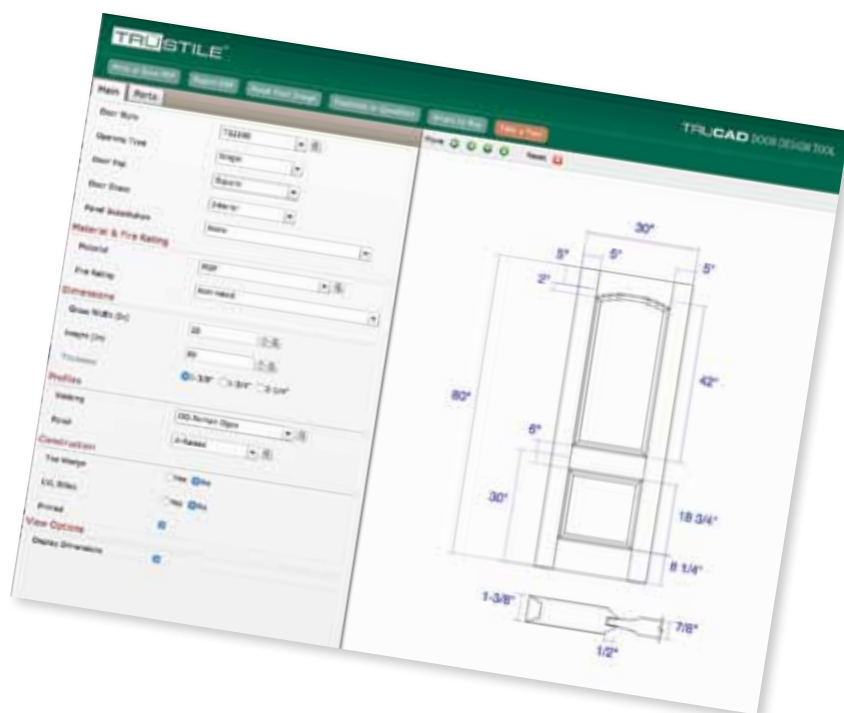

- Doors unify the architectural integrity of the home.
- Other popular design features – granite countertops, appliances and plumbing fixtures – often affect just one room.
- Doors are touched dozens of times each day.
- Quality doors with a substantial feel signal that the entire home is high quality.
- In addition to aesthetic value, high quality doors provide noise reduction and privacy.

There was a time when doors were appreciated for their architectural value, gracing the openings of homes and embodying the principles of their design periods. At TruStile, we miss those days. Committed to partnering with architects, home builders and homeowners, we're reviving the rich tradition of building high-quality, architecturally-correct doors with a range of customization options to fit your preferences and your home's unique character.

The Tru&Modern™ Door Collection consists of over 100 contemporary door styles. A modern take on classic stile and rail door construction. Clean, strong lines. Custom design options. Bold accents. This collection radically alters the concept of what a door can bring to today's modern and contemporary interiors.

## TRUCAD DOOR DESIGN TOOL

Our exclusive web-based software provides architects, designers and homeowners with the ability to further custom design the ideal door.

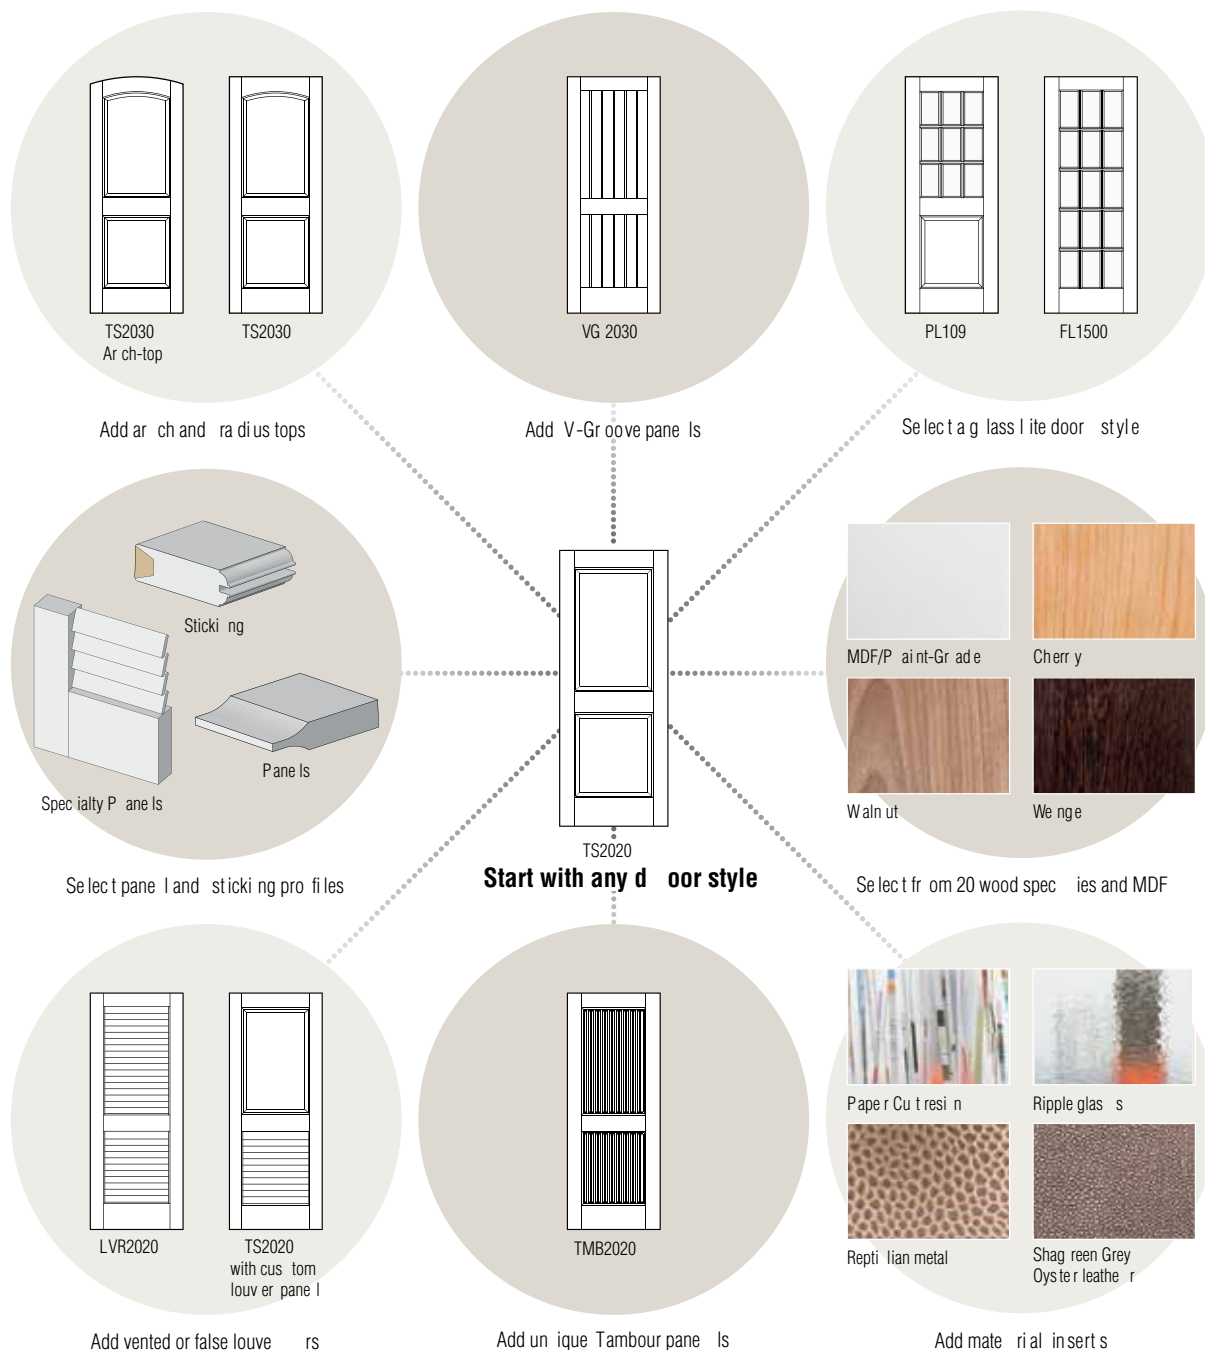

<http://trucad.trustile.com/doordesigntool>

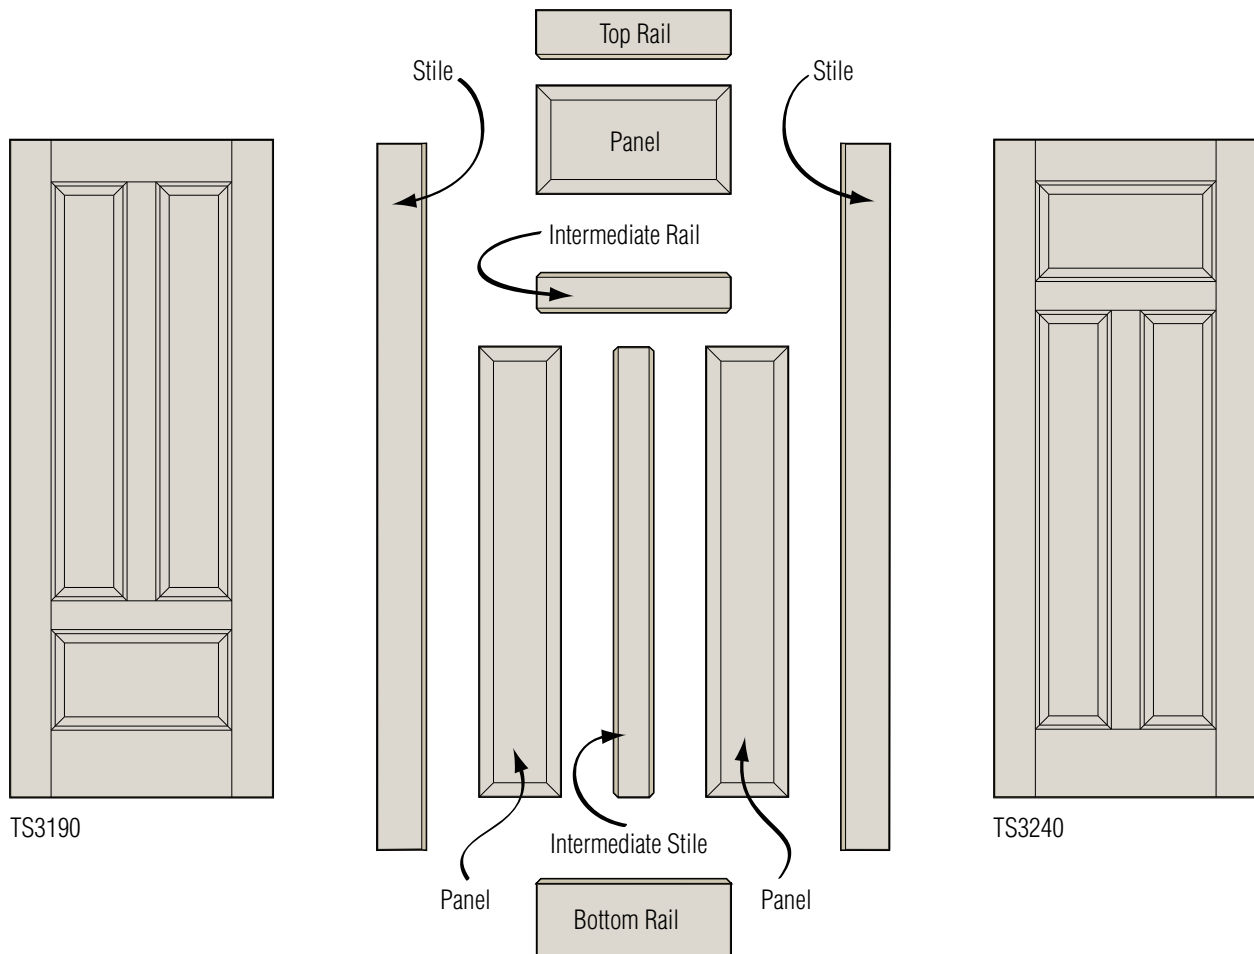

## HOW TO BUILD THE PERFECT DOOR

TruStile boasts over 400 made-to-order door styles in any size, 20 wood species, MDF, 66 panel and sticking profiles and 64 material insert options. If you don't see the right door in our catalog, we will custom build virtually any design your imagination conjures.

## THE ARCHITECTURALLY CORRECT DOOR

TruStile doors are made with authentic stile and rail construction. We wouldn't think of routing or stamping a door. Each TruStile door is made-to-order with perfectly proportioned components, created individually to ensure that every door is architecturally correct, regardless of size.

### All doors are not created equal.

The figure illustrates the timeless advantage of TruStile's authentic stile and rail construction. All door components can be customized and combined to create the style you desire, while the construction method gives each door crisp, architecturally-correct lines.

# CRAFTSMAN ARTS & CRAFTS BUNGALOW PRAIRIE SCHOOL

TRUSTILE®

A simple style focused on natural materials and an attention to period details.

- The American Craftsman style emerged from the English Arts & Crafts movement of the late 1800s and was a reaction to the overly decorative Victorian era
- Emphasizes simplicity of form, originality and local natural materials
- Simplicity and quality workmanship define the TruStile Craftsman door collection.

# FRENCH COUNTRY BEAUX ARTS CHATEAU NEW EUROPEAN

TRUSTILE®

DOORS

An eclectic yet decidedly French style that evokes classic European appeal.

- From elaborate Ecole-des-Beaux-Arts inspired Chateaus to stunning estates in Provence, the French Country style includes decorative detailing, organic floral patterns, distressed woodwork and the use of both subdued and vibrant tones.
- Whether your tastes lean toward the formal Chateau style or the relaxed provincial style, TruStile's French Country series will take your design sensibilities back to the high style of French art and architecture.

# MEDITERRANEAN ITALIANATE TUSCAN

TRU<sup>®</sup>STILE

An enduring trend in American architecture and interior design that expresses a Tuscan sensibility.

- Inspired by the Italian Renaissance, Mediterranean designs appeared in American architecture between the late 1800s and early 1900s. This movement drew heavily on Italian palaces and seaside or country villas.
- Mediterranean details include arched windows and doorways, recessed entryways, red tiled roofs and stuccoed walls.
- TruStile's Mediterranean collection brings the richness and charm of Italian living to your home.

# MODERN MID-CENTURY USONIAN GOOGIE

TRU STILE®

Clean strong lines. Bold accents. Custom design options.

- Early Modern architecture took root in the U S in the 1920s and reached its peak in the mid 20th century.
- Characterized by simplification of form, an absence of ornate detail and a belief that "less is more", Modern style has streamlined horizontal lines and uses industrial materials such as concrete, steel and glass.
- TruStile's Modern Door Collection is centered around crisp, stacked rails, clean strong lines, oversized stiles, custom design options and bold accents.

# SPANISH COLONIAL SOUTHWESTERN MISSION

TRUSTILE®

A warm style that exudes a sophisticated.

- The Spanish Colonial style of architecture was popular in the early 20th century and was embraced in both Florida and California, as well as the southwestern U.S.
- This style is characterized by smooth stucco walls, low pitched roofs, arched entryways and small porches or balconies.
- TruStile's Spanish Colonial series showcases doors with simple lines associated with today's Mission-inspired architecture as well as decorative Spanish Revival door designs.

# TRADITIONAL CAPE COD FOUR SQUARE RANCH

TRUSTILE®

Traditional design often reflects the common sense principles of practicality and functionality.

- Broadly defined, Traditional or vernacular architecture is viewed as a conservative way of building homes to retain the style and beauty of a particular community based on the localized design and historic context.
- On the East Coast, this style is most often associated with Cape Cod, Shingle or Americana styles, while in the Western U S the American Ranch style is predominant.
- TruStile's Traditional series reflects the classic and historic design ideas of an earlier time and place.

# TUDOR ENGLISH TUDOR TUDOR REVIVAL

TRUSTILE®

Tudor architecture reflects a return to a more conservative and formal aesthetic.

- The Tudor period was a distinct part of the Revivalist period in architectural history
- The Tudor home features steeply pitched gabled roofs, high chimneys, tall mullioned windows and half-timbering
- Inspired by English manor homes, the TruStile Tudor series features an assortment of elegant designs and gentle arches

# VICTORIAN QUEEN ANNE GOTHIC

TRUSTILE®

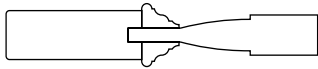

Where unconventional ideas took root and elaborate styles came to light.

- The Victorian era of architecture reigned from the 1830s until the beginning of the 20th century and was known as a period of romanticism
- Ornamentation such as gingerbread detailing or Victorian lace is frequently used Roof lines tend to be accented with hipped gables, towers and dormers
- The ornate nature of the TruStile Victorian door line effectively reproduces this historic time.

Resinart is the pioneer of flexible moulding and has been supplying the building materials industry since 1968. We specialize in DuraFlex flexible mouldings and have an inventory of over 18,000 patterns. In addition to its flexibility and superior longevity, finished DuraFlex is insect proof; moisture proof, and can withstand extreme heat and cold without warping, cracking or deteriorating. DuraFlex is an easy and economic alternative for half round windows, arches, ellipticals, ovals, curved walls, dormers and many other radius applications. DuraFlex can be used on the interior or exterior and can withstand any harsh environmental conditions.

## FLEXIBLE LIMITATIONS & RANGES OF MOVEMENT

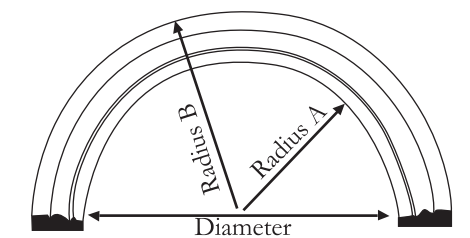

### Straight base or casing bending against thickness

Applications bending against the smaller dimension usually the 1/2" - 1-1/2" thick (i.e. Base with measurements 5/8 x 4-1/2) will bend easily in the direction of the lesser dimension with no pre-curving necessary.

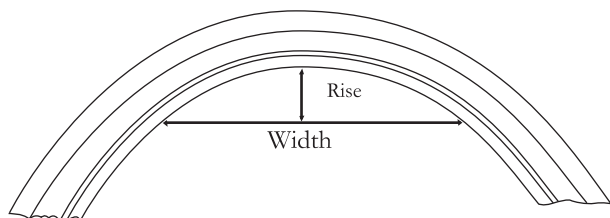

Minimum radius 10".

Product has a tendency to cup when bent too tight on wall.

Moulding will not bend around 3/4" or 1-1/2" bullnose corners.

Radius B (x) 3.14 (÷) 12 = minimum length needed

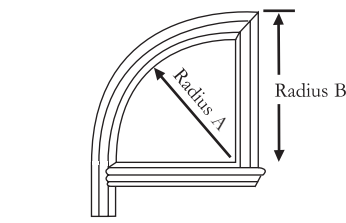

Rise (x) 2 (+) Width = minimum length needed

### Straight Crown

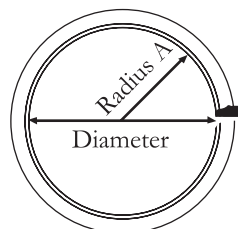

NOT ADVISABLE. Customer should supply radius information to allow Resinart to confirm if straight will work.

### Measuring

Calculate approximate lengths needed using radius B in inches and round up to nearest foot. Use Radius A and Width A dimension for ordering actual part.

Radius B (x) 3.14 (÷) 2 (÷) 12 = minimum length needed

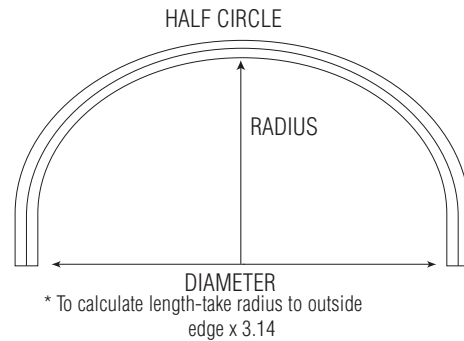

Diameter (x) 3.14 (÷) 12 = minimum length needed

## Radius Half Circle Window & Door Casing

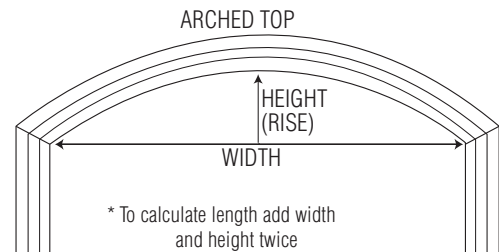

All Casing is made with thick edge to outside unless specified

Entering into our 64th year in business, Fitts Industries is dedicated to manufacturing and distributing the finest stair components on the market. Today, as all major competitors have chosen to allow foreign interests to manufacture their products - Fitts is dedicated to American manufacturing. Our 150,000 sq. ft. manufacturing plant is steeped in craftsmanship learned from the furniture mills of the Carolinas. In a town made famous by Bear Bryant - Fitts is a jewel of the South when it comes to your stair component needs. Our extensive offering of more than 7000 products in both hard and softwood mouldings and turnings, Fitts wood stair products bring a warmth and luster to your stair case. Our imported lines of wrought iron, as well as, pre-primed newels and box newels offer an affordable alternative without sacrificing the quality of most imported products.

\*All 14' and 16' solid cap (SC) rails have (1) joint in top ply.

# *Creative Stairs*

and WOODWORKING CORPORATION

Quality - in materials...design...and workmanship - is the first and most important step to creating a showcase staircase at Creative Stairs. Our company was built on a tradition of quality born from Old World craftsmanship using the finest materials and designs.

From the initial planning through installation, each detail is carefully addressed. The result is an elegant, but functional product that truly deserves to be the focal point of a home, while blending aesthetically with its surroundings.

For a product created by experience, quality, pride in workmanship, service, and the personal touch, choose Creative Stairs.

# FINISH HARDWARE

Taylor Made Home Solutions offers a wide variety of styles and finishes that coordinate with other design elements in your home. Whether you're replacing existing hardware or selecting for your new home project, we will help you identify the product that is right for you. Browse our choices for design inspirations to make your home uniquely yours.

***Kwikset***

It's been more than 166 years since Charles Hager first started working in a blacksmith shop. And in that timespan, we've grown from forging wheel rims for Conestoga wagons to offering more than 6,000 door hardware products. Today, the products created by Hager Companies can be found all over the world. And for good reason: they're built to last.

At Hager, we are committed to being your one source for full line door hardware. We stand alone as one family and one brand. We create products that make a difference in one community at a time, while being mindful of the one planet we all share.

## RESIDENTIAL HINGES FIVE KNUCKLE

### 1541 Plain Bearing Hinge

- Brass with brass pin (ANSI A2134) or stainless steel with stainless steel pin (ANSI A5134)

					1 x 9 FH (wood)

A lot's changed since Walter Schlage opened his first shop in 1920. At the same time, there's a lot that hasn't changed, either. We're still meticulous designers, painstaking engineers, and proud craftsmen.

When furnishing your house, Door Hardware & Accessories might not be the first thing you think of, but they'll probably be the first thing you notice each time you come home. Hardware & accessories are the finishing touches that distinguish your house from the next, so consider our full range of finishes in order to make your house a reflection of you. Inside and out, Schlage has everything you need to complete your home.

The little things make the difference. Schlage door hardware & accessories allow you to create a home that reflects your sense of style in every room and on every level. Our products are built for durability so that you never worry about the strength of your security.

## Specifications

**Applications:** Residential single- and multi-family doors.

**Certifications:** ANSI A156.2, 1996, Series 4000 Grade 3.

**Exposed Trim:** Levers are zinc-based; plated to match finishes indicated. Knobs are brass or stainless steel; plated to match finishes indicated.

**Keying:** 5-pin tumbler Schlage C keyway with two brass keys.

**Door Range:** 1-38" to 1-34" (35mm to 44mm) standard.

**Backset:** Universal latch standard, fits either 2-3/8" (60mm) or 2-3/4" (70mm) backsets.

**UL Listing:** Knobs/levers available with UL Listing - Box Pack only.

## Standard Features

- Lifetime Mechanical Warranty, five-year Finish Warranty.
- Schlage C keyways can be keyed to Schlage locks for one-key convenience.

## Latches & Strikes

**Latches:** 1" x 2-1/4" (25mm x 57mm), 1/2" (13mm) throw standard. Dual option faceplates, including 1-1/8" (29mm) round corner and circular drive-in, are standard for passage and privacy functions. Keyed functions also come with 1-1/8" (29mm) square corner faceplates standard, in addition to round corner and circular drive-in. UL locks ship with UL-rated latch and faceplate.

**Standard Strikes:** 1-5/8" x 2-1/4" (41mm x 57mm) full lip.

# Kwikset

Kwikset manufactures and markets a complete line of door locks and door hardware including door knobs, door levers, deadbolts, handlesets, pocket door hardware and electronic keyless entry locks for residential and light commercial applications. Millions of families have relied on Kwikset for security and peace of mind.

At Kwikset, we think people shouldn't have to settle when it comes to home security. For over 60 years, we've believed that innovation is our greatest asset. Technology can deliver both quality and convenience. And the strongest insights come from understanding the people who use our products and how they use them. Everything we've learned has led us to one simple premise – the best security is smart security.

- Re-key in seconds – save time & money
- Available in all Kwikset keyed-entry products
- Pick Resistant – passes the most stringent lock picking standard, UL437, par 11.6
- 980 Series Deadbolt Certified ANSI/BHMA Grade 1 Security – the highest level of residential security available in the industry
- BumpGuard™ for protection against lock bumping\*

## DEADBOLT SECURITY

Protects against the most common types of attacks:

### DRILL ATTACK

Drill Resistant – cylinder uses two steel balls inserted into the front of the cylinder face to resist attack from drilling.

### SAW ATTACK

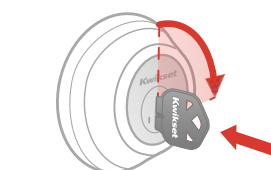

Saw Resistant – hardened steel core prevents the bolt from being sawed off.

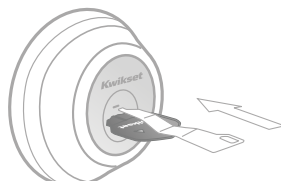

### KICK-IN

Full 1" throw bolt with hardened steel core and a heavy gauge solid steel strike with four 3" screws reinforces the door frame and protects against kick-ins.

## RE-KEY IN 3 SIMPLE STEPS

- 1 Insert functioning key & turn 1/4 turn clockwise.

- 2 Insert & remove the SmartKey learn tool. Remove functioning key.

- 3 Insert new key & turn 1/2 turn counter-clockwise. Done. **Your lock is now re-keyed!**

Functioning Key
